SUMMARY

Computer Science and Engineering undergraduate skilled in SQL, Power BI, and Python fundamentals, with hands-on experience in data analytics, visualization dashboards, and software projects. Strong foundation in DSA, DBMS, OS, and problem-solving with a passion for learning and building innovative solutions.

EXPERIENCE

Artificial Intelligence Intern, Nyeras Edu-Tech And Innovations Private Limited Jun 2025 – Aug 2025

- Developed a Student Performance Prediction System using Python and Scikit-learn to classify student outcomes.
- Engineered relevant academic features and optimized model parameters to improve prediction accuracy and reliability.
- Conducted exploratory data analysis (EDA) on student records to uncover patterns and guide model development.

PROJECTS

Superstore Sales Dashboard using Power BI & MySQL [🔗](#) (Power BI, SQL)

- Developed an interactive Power BI dashboard connected to MySQL to analyze **5,000+ sales records** and generate business insights.
- Designed and implemented a dynamic Superstore Sales Dashboard in Power BI with MySQL integration for sales, profit, product, and region-wise analysis.

Netflix Content Analytics Dashboard [🔗](#) (Power BI, Data Analytics)

- Developed an interactive Netflix Content Analytics Dashboard in Power BI to analyze movies and TV shows by genre, country, release year, and content type.
- Built dynamic dashboards using **Power BI, Power Query, and DAX** with KPI cards, charts, maps, and slicers for interactive analysis.

SKILLS

Programming Languages: Python (Basics)

Database & SQL: SQL (DML, DDL, DCL, Joins, Subqueries, Aggregate Functions, Data Manipulation)

Data Analytics: Power BI, Data Visualization, Dashboard Development

Tools: Visual Studio Code, Google Colab, MySQL Workbench, Power BI Desktop

EDUCATION

Presidency University, Bangalore

- **Coursework:** Data Structures & Algorithms, Theory of Computation, DBMS, Operating Systems, Computer Networks.

CERTIFICATIONS

- **IBM MySQL and Relational Databases 101** — IBM / Cognitive class
- **Deloitte Data Analytics Job Simulation** — Deloitte / Forage
- **TCS ION Career Edge – Young Professional** — Tata Consultancy Services

ACHIEVEMENTS

- Completed hands-on projects in Data Analytics using **SQL and Power BI**.
- Developed dashboards and performed data analysis using real-world datasets.
- Earned certifications in relevant technical domains.
